# 2022 SCHOOL PERFORMANCE NOTE

The Department recognises the efforts of staff in managing the ongoing and unforeseen situations created by COVID-19 and recent floods.

We understand that re-establishing normal schooling patterns in the context of persistent workforce issues is exacerbating challenges faced by schools, and that regular patterns of schooling continue to be disrupted.

Data collection has also been impacted by these challenges, most notably resulting in the absence of 2020 NAPLAN data, in turn affecting the capacity to monitor growth in 2022. In order to adjust for this data gap, 2021 NAPLAN growth data has been used this year to calculate the achievement domains, with equal weighting applied to Benchmark Growth 2021, Top 2 Bands 2022 and Bottom 2 Bands 2022.

Calculation of the school performance groups is otherwise consistent with previous years.

Domains: 7 out of 7  
Measures: 18 out of 18

## Overall Performance Group

Current Level: Low

Change Level: Maintained

Performance is static over time (including some cases where performance is moderate but on a declining trajectory) and requires renewed effort to be high performing.

As an overall performance group, this indicates a mix of results at the domain and measure level.

A school's overall performance group represents its combined performance on the Achievement, School Climate, Student Attitudes, Engagement, Participation and Senior Secondary (for secondary, Pri/Sec schools only) domains.

## Domain Performance Group

### Achievement (Reading)

STRETCH

The Achievement (Reading) domain measures performance on NAPLAN assessments in Reading; which includes achievement in top two bands, lifting low performers and positive change in benchmark growth.

### Achievement (Numeracy)

TRANSFORM

The Achievement (Numeracy) domain measures performance on NAPLAN assessments in Numeracy; which includes achievement in top two bands, lifting low performers and positive change in benchmark growth.

### School Climate

RENEW

The School Climate domain measures staff endorsements of Collective Efficacy and Academic Emphasis from the School Staff Survey.

### Student Attitude

STRETCH

The Attitudes to School domain measures students engagements in Stimulating Learning, Learning Confidence and Student Safety from the Attitudes to School Survey.

### Engagement

TRANSFORM

The Engagement domain focuses on students attendance.

### Participation

STRETCH

The Participation domain measures students participation in NAPLAN assessments, responses to School Staff Survey and responses to Attitudes to School Survey.

### Senior Secondary

STRETCH

The Senior Secondary domain measures students achievement in VCE English subject and VCE/VCAL completion rates.

For a more in-depth look at the data in this report, including five-year trends and comparisons with Similar Schools, see the [Panorama Dashboards](#).

# How to read your School Performance Report

# Differentiated School Performance Groups

The Differentiated School Performance Groups (Figure 1) complement the revised approach to school review and differentiated approach to school improvement.

Five performance groups are identified.

FIGURE 2: SCHOOL PERFORMANCE TABLE

- To determine your school's performance group, the 'current level' and 'change level' of all schools in the state are segmented into five performance levels to create a five-by-five table (25 segments) for each measure
- Your school's placement within this table, based on your school's 'current level' and 'change level' for each applicable measure, determines the performance group to which your school belongs
- Measures are aggregated to the domain level and an overall performance group level to provide an overall summary of your school's performance

MEASURES					DOMAINS	
Top two bands of NAPLAN	+	Bottom two bands of NAPLAN	+	NAPLAN Benchmark Growth	=	ACHIEVEMENT (Reading/Numeracy)
Collective efficacy (% of positive survey responses)	+	Academic emphasis (% of positive survey responses)	+	Instructional leadership <sup>1</sup> (% of positive survey responses)	=	SCHOOL CLIMATE
Stimulated learning (% of positive survey responses)	+	Sense of confidence (% of positive survey responses)	+	Managing Bullying (% of positive survey responses)	=	STUDENT ATTITUDE
Primary to Secondary <sup>2</sup> (% of positive transitions)		+	Attendance Rate		=	ENGAGEMENT
Mean VCE English score <sup>3</sup> (study group)		+	Senior Secondary completion <sup>3</sup>		=	SENIOR SECONDARY
NAPLAN participation	+	Attitudes to School (survey participation rate)	+	School Staff Survey (survey participation rate)	=	PARTICIPATION

<sup>1</sup> The Instructional Leadership Measure in the School Climate Domain was introduced in 2021.

<sup>2</sup> The Primary to Secondary Measure in the Engagement Domain will be introduced in the future.

<sup>3</sup> Only applicable to schools that offer senior secondary program

The **six domains** and associated **measures** shown at left form the basis of the differentiation method.

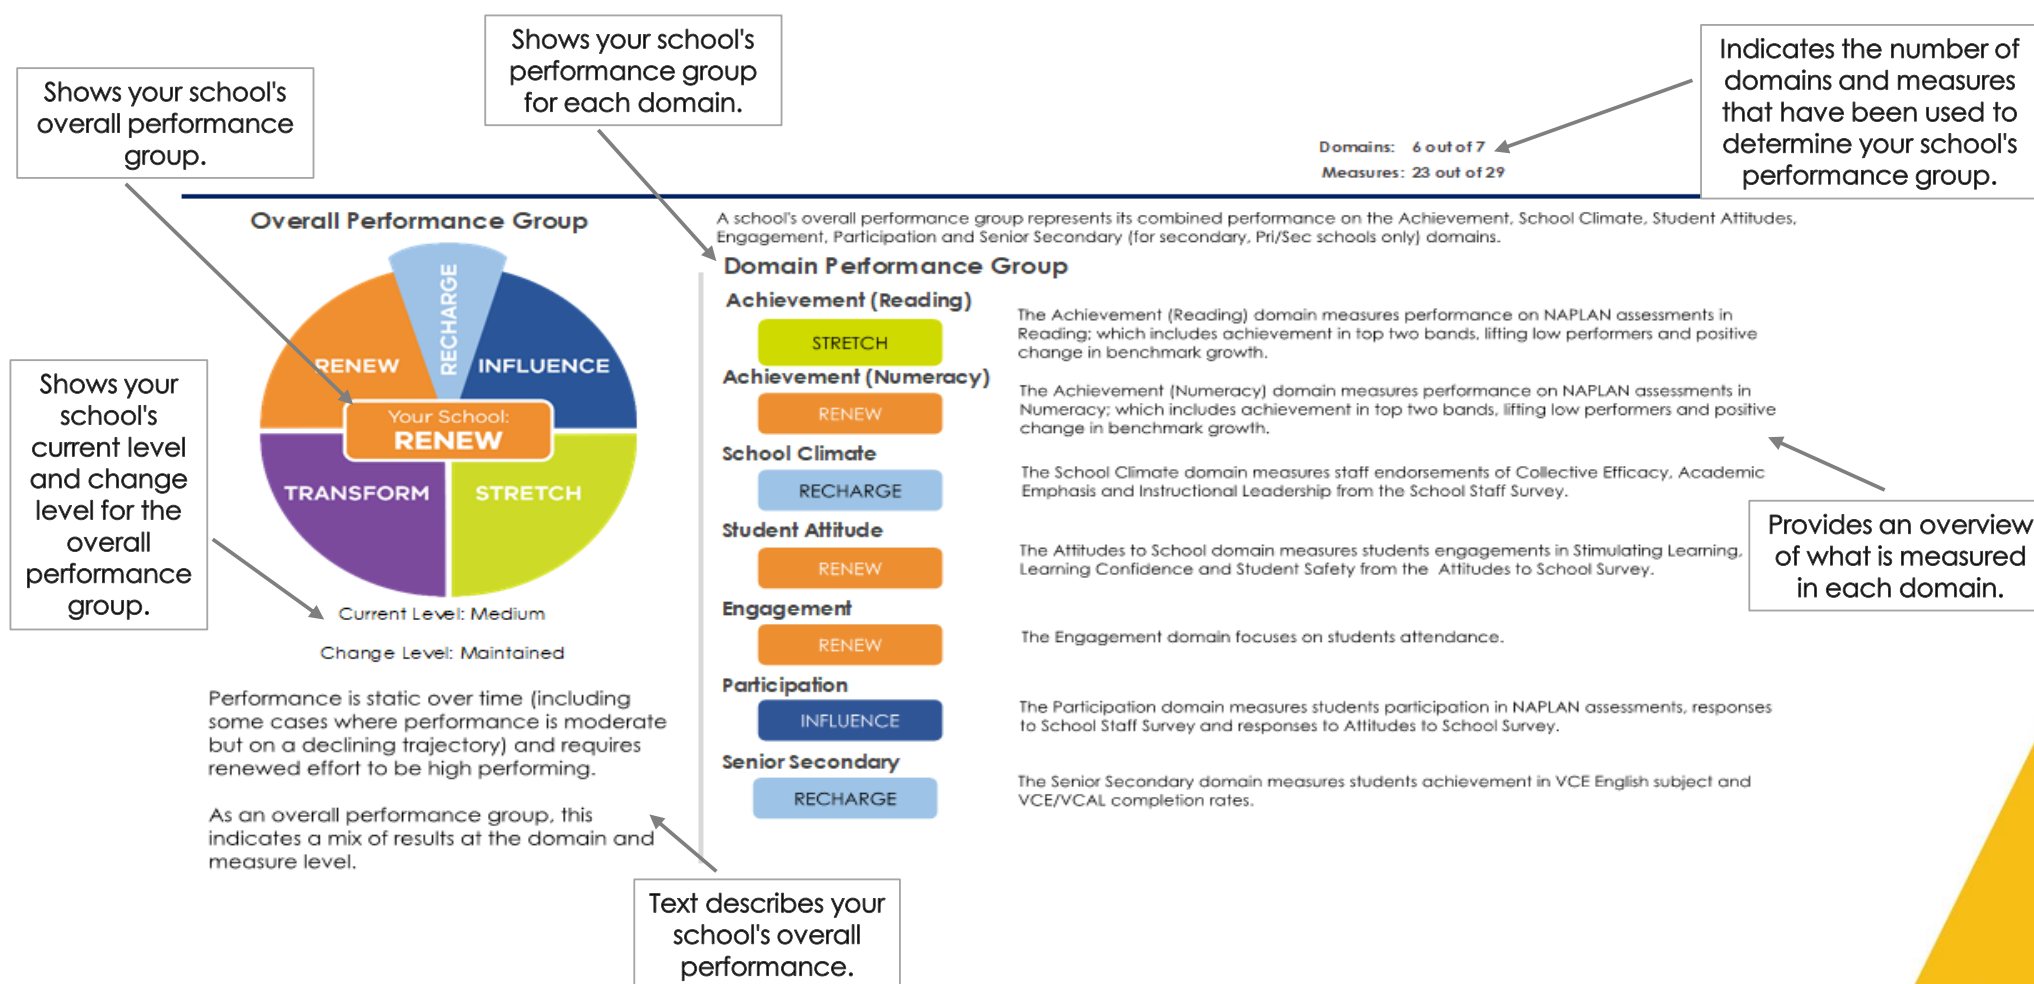

These have been selected based on their alignment to FISO school improvement objectives and Education State targets.
